Claim Rejections - 35 USC § 112

1. Claims 11 and 32 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Since the orientation of the hub assembly has not been set forth, the term "below" is indefinite as it is not clear which direction would be "below."

Claim Objections

2. Claims 4 and 25 are objected to because the word "contacts" should be changed to - -contact- -.

Appropriate correction is required.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-3, 5, 7-12, 14-16, 20, 22-24, 26, 28-33, and 35-37 are rejected under 35 U.S.C. 102(b) as being anticipated by Yamane.

In figure 2, Yamane shows a bicycle sealing assembly comprising first and second dust caps and first and second sealing members, as noted below.

5. Claims 1, 4, 5, 7, 17, 20, 22, 25, 26, 28, 30, 33, 35 and 38 are rejected under 35 U.S.C. 102(b) as being anticipated by Yamane.

As noted below, figure 2 shows the sealing members and dust caps.

Fig. 2

Allowable Subject Matter

6. Claims 6, 13, 18, 19, 21, 27, 34, 39, and 40 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The references show other bicycle hubs and sealing arrangements.
